

# Bees and Wasps

## ABOUT THE COLONIES

### Bees

### Wasps

#### Carpenter Bee

They live on their own but their nest is near the other bees.

#### Paper Wasp

They are a social living group of 5 to 30 wasps

#### Leaf Cutter Bee

A Leaf Cutter bee makes a new nest every offspring.

#### Bald Faced Wasp

400 wasps live in their football based paper wasp

#### Honey Bee

They live in groups of 50,000 to 60,000

#### Potter Wasp

They make their nest out of mud or chewed up plants
