

# Killdeer

The Killdeer is a noisy loud orange tailed bird with two black rings on its neck, it lives in plowed feilds, short grass lawns, and lake shores.

Their calls can be carried long distances and their calls are very loud.

The Killdeer has, long, dark yellow legs; white breast with two black bands; brown head and white eye brows.

A Killdeer's eggs look like stones so predators wont see them if they are laying in a pile of rocks.

Killdeers make their nests out of small pebals, stones, and small sticks.
